THE EVENT

ABOUT GENESIS TRACK FEST

Genesis Track Fest is a professional athletics competition created to encourage school, club, and academy athletes. The event gives young athletes a platform to compete, perform, and grow with confidence — turning Nehru Stadium into a stage for Coimbatore's next generation of track and field talent.

Now in its first edition as a Junior & Senior Athletic Championship, the Fest brings together athletes across six age categories, supported by certified officials, structured medal ceremonies, and a full programme of media coverage — built to feel like a national-level meet from the very first year.
